August 26, 2008

Mr. Michael Skipper
Director
Nashville Area MPO
800 Second Avenue South
Nashville, Tennessee 37201

RE: FTA approval for Amendment #11, 5317, 2008 FY New Freedoms Bucket, TIP # 2008-85-093 and 5316, 2008 FY Job Access and Reverse Commute (JARC) Bucket, TIP # 2006-402

Dear Mr. Skipper:

Below is approval from FTA for the above two mentioned project. Please accept this as approval to begin work on these projects.

> FTA has reviewed the Nashville Area proposal to amend the State Improvement Transportation Program 2008-2011. We find that this project provides fiscal constraint, is exempt from air quality conformity and meet the requirements of the National Environmental Policy Act 40CFR 93 126. FTA concurs that the MPO has followed procedures and has met all requirements necessary to permit approval of the amendment.
