## Transportation Conformity Check List

The Transportation Improvement Program (TIP) and all amendments must include a conformity report. The conformity report must address each item below in order for the Federal Highway Administration (FHWA) to provide approval for inclusion of the TIP into the Statewide Transportation Improvement Program (STIP). Please submit a copy of this checklist and the conformity report with your request to add projects to the STIP.

1) Identify which of the following applies to this TIP/TIP amendment:

**(OR)**

- b) The report states that projects included in the TIP/TIP amendment are consistent with the conforming LRTP and identifies how they meet the requirements of 40 CFR 93.122 (i.e. the project is not regionally significant; does not impact the timing/funding of projects previously included in the conformity determination; project is exempt from conformity.) and a copy of the FHWA/FTA conformity finding is included.

**(OR)**

- c) The report states that the TIP/TIP amendment is subject to a new conformity finding and that the appropriate documentation to support the requirements of 40 CFR 93.109 is included in the document.

**<<<Note: For new conformity findings, use the Long Range Transportation Plan Conformity Checklist in addition to the Transportation Improvement Program Conformity Checklist.>>>**

- Adopting Resolution for the TIP/TIP amendment;
  - Adopting Resolution for the applicable Conformity Determination.
- 4) The report provides cross-references for projects listed in the TIP/TIP amendment to those listed in the Transportation Plan. (cross-reference may be accomplished through numbering system, or consistent project naming).
- 5) The report documents the public participation process of the TIP/TIP amendment including any comments raised verbally or in writing and how the MPO addressed raised issues; or the report states that no comments were received.
- 6) The report identifies the interagency consultation process used in the development of the TIP/TIP amendment according to 40 CFR 93.105; and includes any comments raised and how the MPO addressed raised issues; or the report states that no comments were received.

Project Cross References

The Long Range Transportation Plan Project number for each TIP amendment is provided in the table above.

Public Participation

Public participation processes as described in the Nashville Area MPO's Public Participation Plan were followed. The Executive Board released the amendments for public review on September 17, 2008. Amendments were placed in all local public libraries for the required 21-day public comment period. Newspaper ads were published announcing the public review period and the public hearing schedule. Two public hearings were held to receive public comments. The first hearing was held on October 1, 2008 at the meeting of the Technical Coordinating Committee. The second and final public hearing was held on October 15, 2008 at the meeting of the Executive Board. No public comments were received regarding these projects.

Inter-Agency Consultation Process

Exempt projects were determined during the Inter-agency Consultation (IAC) process and generally follow the requirements of 40 CFR 93.126.

Projects were classified as exempt from conformity analysis if they:

- (1) add only bicycle or pedestrian facilities
- (2) fund operations, vehicles, or other equipment for transit/rideshare agencies
- (3) add or upgrade signals without changing the total number of thru lanes
- (4) add signs, lighting, crosswalks or other amenities without changing the total number of thru lanes
- (5) reconstruct roadways or bridges without changing the total number of lanes, including shoulder improvements and bringing lane widths up to standards

It was also agreed through Inter-agency Consultation that two additional types of projects would be reviewed on a case-by-case basis to determine exempt status:

- (6) extend an auxiliary lane between interchanges on an access-controlled facility
- (7) signal interconnects or other corridor-wide signal projects.

*These two project types were not included in the conformity modeling. The IAC committee determined that inclusion of these projects in a future Transportation Improvement Program may require a Long Range Plan amendment, at which point they will be discussed in the Interagency Consultation process and explicitly included in a new conformity determination.*

**Subject: 1-hr Conformity Determination for Nashville 2030 Long Range Transportation Plan**

Dear Messers. Nicely, and Anderson:

The Tennessee Division of the Federal Highway Administration (FHWA) and Region 4 of the Federal Transit Administration (FTA) in coordination with Region 4 of the Environmental Protection Agency (EPA) have reviewed the Nashville Area Metropolitan Planning Organization's (MPO) 2030 Long Range Transportation Plan and Conformity Determination, adopted on October 19, 2005. The Tennessee Department of Environment and Conservation, the Tennessee Department of Transportation, and the Metro Transit System, also had an opportunity to review and comment on the above-mentioned documents.

The Conformity Determination must be based on a Long Range Transportation Plan that meets the Federal Planning Regulations listed under 23 CFR 450.322. FHWA and FTA have reviewed the Nashville Area MPO's 2030 LRTP for consistency with the Federal requirements, and have determined consistency.

FHWA and FTA found that the Conformity Document for the Nashville Area MPO meets the five primary criteria of the Transportation Conformity Rule (62 FR 43779, August 15, 1997):

- use of the latest planning assumptions;
- use of the latest emissions model;
- use of appropriate consultation procedures;
- consistency with the mobile source emission budgets in the State Implementation Plan (SIP); and
- provisions for timely implementation of transportation control measures in the SIP.

We also found that these documents met the criteria outlined in the Transportation Conformity Rule for the 1-hour Ozone Standard.

Therefore, the FHWA and the FTA approve the Conformity Determination for the 1-hour ozone standard for the adopted Nashville Area 2030 Long Range Transportation Plan.

If you have any questions regarding this approval, please contact Theresa Hutchins (FHWA) at 615-781-5767 or James Garland (FTA) at 440-562-3507.

Sincerely,

Bobby W. Blackmon
