2010	PE	S-CMAQ	375,000	375,000		

Description: Installation of ITS equipment, with communication capability. Devices to be designed and installed include closed circuit television (CCTV) cameras; dynamic message signs (DMS), system detection, Highway Advisory Radio (HAR), and weather stations.

Background: This is an existing project in the FY 2008-11 TIP. The amendment removes FY 2010 CMAQ funds for CONST from the TIP due to the FY 2009 rescission of federal funds. Additionally, 2010 PE CMAQ funds are reprogrammed with S-CMAQ funds subject to availability per TDOT. TDOT records show that \$187,500 in federal funds has been obligated for the PE phase.
